London Wool Auction.

Londen Wool Auction.

LONDON, Sept. 29.—Fifth series of the 1994 auction sales closed today. When the sales opened, bidding was active and most descriptions ruled unchanged from the July closing. Later the firmness increased and often advances of 5 per cent were noted. Greasy scoured sold well. Medium and heavy greasies, which at first wro rather weaker, improved. Inferior and faulty scoureds were irregular and hard to sell. The demand for crossbreds was very strong throughout. Coarse sold firmly at unchanged rates and medium and scoured advanced 5 per cent. Good greasy combing from Cape of Good Hope commanded 140% advance. The sales closed at the best prices. The market is practically clear of old stock. During the series fifty thousand bales were taken by home buyers, 20,000 for the continent, 40,000 for America and 3000 were held over. The offerings today amounted to 8571 bales. Superior slipes sold 190144 above the July average. Good greasy halfbreds were in active request for America.

Big Tomato Crop **Embarrasses Buyers**

Utah Packers Have Put Up Immense Stocks, and Coloradoans Trying to Break In.

Wholesalers who have ordered tomatoes for fall delivery at all heavily are against a rather serious proposition. The favora-ble weather conditions have enabled the canners to put up enormous stocks of goods, and, the Eastern crop being equally heavy, the outlook is that tomatoes will be a drug on the market. It is said that Colorado packing concerns are trying to place the surplus of their product here. So far the local packers have been able to control the situation, but it is feared that unless the railroads come to the rescue with a rate which will prohibit importations, the market may be knocked to pieces. The recent frosts have had little effect on tomatoes, except in the lowest parts of the valley, and the end of the season's crop is not yet in sight. Cantaloupes are getting scarce, but the prices remain about the same. Fresh supplies of bananas in large quantities are being received on the local market in anticipation of conference demand. New invoices of Northern crabs were received yesterday, but lobsters are scarce. The supply of chickens is better than for some time past. Produce business generally is improving. There were no price changes yesterday.
